PICTORIAL VIEW OF CAMPUS

Vision:

- ◆ To produce entrepreneurs
- ◆ The Job Providers not the Job seekers

Mission:

- ◆ To Provide Quality Education to students, equip them with advanced technical knowledge and practical training for effective productivity, while creating an open culture within the college to harness creativity and innovation to be competitive in the field.
- ◆ Train and Guide in manufacturing practices
- ◆ Establish Industrial partnerships
- ◆ Establish clear methods and standards
- ◆ Strive for continuous improvement
- ◆ Standard of Education and Training
- ◆ Delight the Students with Quality, Education and PRACTICAL Training
- ◆ No compromise on educational standards and training
- ◆ Events are planned and run smoothly
- ◆ Effective and regular Parents/Teachers meetings

Brief Introduction of college:

Anjuman Himayat-ul-Islam, over century old Muslim NGO in the Indo-Pak Subcontinent in association with Muhammad Amin Wakf Estate initially established Polytechnic and Vocational Institute in its old premises inside Dar-ul-Shafqat commonly known Yateem Khana, in the year 1962. Later the Polytechnic and Vocational Institute was shifted to a purpose built campus spread over an area of more than eight Kanals having purpose built building and spacious playground. It is the only institute in the town having its own purpose built campus and vast playgrounds. Today more than **600** students are enrolled in this Institute in various technical courses. It has been a pioneer in providing quality technical and vocational education. We offer specialized programs in Electrical, Civil, Mechanical, Computer Information Technology, and HVAC&R, equipping students with the practical skills needed for today's dynamic industrial requirements. In addition, we run various vocational programs such as Tailoring, Beautician, Cooking & Baking, shorthand, languages and Computer short courses conducted by highly qualified and experienced staff. Our mission is to empower students through hands-on training and industry-relevant knowledge to prepare them as entrepreneurs.

Realizing the need and requirements of higher education the management has decided to upgrade the Polytechnic to Degree College, with name and style

“HIMA College of Engineering Technology”

alongside the existing Polytechnic and Vocational Institute.

HIMA College of Engineering Technology is offering Bachelor's degree programs in Electrical and Civil Engineering Technologies. These programs are affiliated with **Govt. College University Faisalabad (GCUF)** and accredited by **National Technology Council** aligning the academic framework with modern industrial standards so as to enhance career opportunities for our students. This transition reflects our commitment to academic excellence and our vision of producing skilled graduates ready to meet with the present day industrial demand in line with the evolving technological landscape.

Affiliations

HIMA College of Engineering Technology is affiliated with **Govt. College University Faisalabad (GCUF)** and accredited by **National Technological Council** for following programs

- ◆ *Electrical Engineering Technology*
- ◆ *Civil Engineering Technology*

Electrical Engineering Technology:

The Electrical Engineering Department, offers undergraduate electrical engineering technology program. The curriculum formulated by **HEC** and **NTC** is followed in our program. The department places maximum emphasis on lab work and project works backed by regular industrial visits to develop concepts of the theory taught in the courses. We have a highly qualified, capable and devoted faculty consisting of good blend of Lecturers and lab engineers according to the laid down requirements of NTC. Facilities, including research laboratories equipped with the latest technology, give the students and stimulating learning environments.

ENTRY REQUIREMENTS

- ◆ Twelve Years of Education, HSSC Pre-Engineering (Physics, Chemistry, Mathematics), HSSC Pre -Medical (Physics, Chemistry, Biology), ICS (Physics, Computer Science, Mathematics), A-Level or equivalent, with a minimum score of 50%.
- ◆ Diploma of Associate Engineer (DAE) in the relevant discipline as per NTC regulations with a minimum of 50% marks
- ◆ As per NTC guidelines entry Test is mandatory.

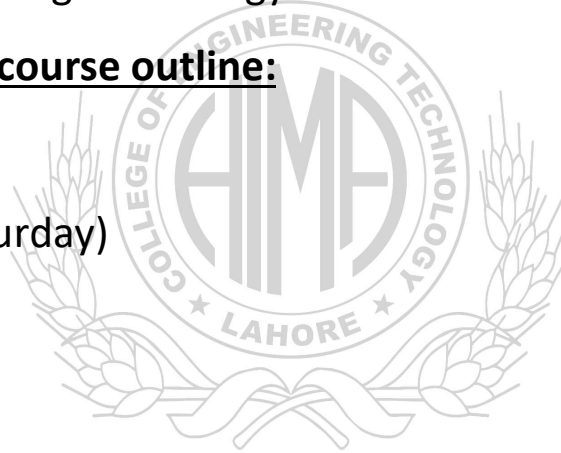

CAREER PROSPECTS:

Electrical technologists are in demand with employers both within Pakistan and abroad. This degree attracts wide range of employment in the field of Communication such as electronic industry, electronics media, automation, power generation, transmission, distribution companies and industries driven by electric power. Electrical Engineering Technology presently is the most demanded engineering technology in the world especially in Middle East.

Programs offered, Duration and course outline:

Program duration: **4 years**

Timings: Evening (Monday to Saturday)

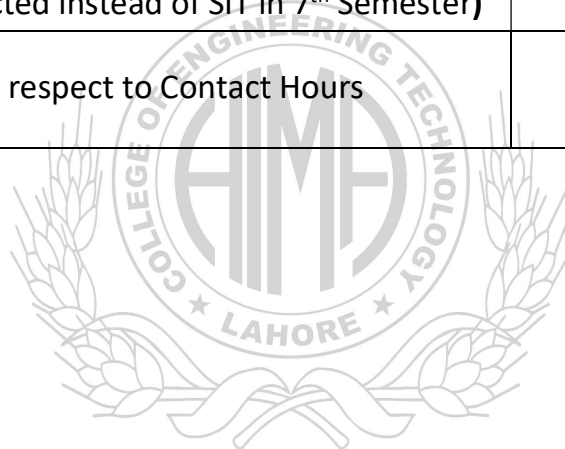

Bachelor of Science in Electrical Engineering Technology:

Semester I	Semester II	Semester III	Semester IV
ELH-111 Islamic Studies	ELH-121 Pakistan Studies	ELH- 211 Professional ethics	ELT- 221 Instrumentation & measurements
ELE-111 Communication Skills	ELQ-121 Differential Equations	ELE -211 Technical report writing	ELT-222 Electric machines
ELQ-111 Calculus & Analytical Geometry	ELN-122 Natural Science Elective-I	ELQ- 211 Linear algebra	ELT- 223 Signal & systems
ELN-112 Applied Physics	ELM-121 Management Science Elective-I	ELT -211 Technical drawing	ELT- 224 Micro-controller system
ELC-111 Information and Communication Technology	ELC-121 Computer Programming	ELT- 212 Electronic devices &circuit	ELT- 225 Breadth elective-I
ELT-111 Electrical Workshop	ELT-121 Linear Circuit Analysis	ELT- 213 Logical circuits & application	ELI- 221 IDTE-I
	ELT-122 Environment, Health and Safety	ELT- 214 Electric network analysis	

Semester V	Semester VI	Semester VII	Semester VIII
ELT-311 Control Technology	ELM-321 Management Elective-II	ELT-411 Supervised Industrial Training (Optional)	ELT-421 Supervised Industrial Training (Compulsory)
ELT-312 Communication Systems	ELT-321 Depth Elective-III	ELH-411 Social Sciences	
ELT-313 Breadth Elective-II	ELT-322 Depth Elective-IV	ELT-412 Depth Elective-VI	
ELT-314 Depth Elective-I	ELT-323 Depth Elective-V	ELT-413 Depth Elective-VII	
ELT-315 Depth Elective-II	ELI-321 IDTE-II	ELT-414 Depth Elective-VIII	
ELT-316 Project Part-I	ELT-324 Project Part-II	ELT-415 Depth Elective-IX	
		ELC-411 Computing Elective-I	

Subtotal		
Total Credit Hours & Contact Hours in Four Years (When SIT conducted in both 7 th and 8 th Semester)	64+65 = 129	64+195=259
Theory vs Practical with respect to Contact Hours	Theory Practical	64 (24.71%) 195 (75.29%)
Total Credit Hours & Contact Hours in Four Years (When optional courses conducted instead of SIT in 7 th Semester)	75+54 = 129	75+162 =237
Theory vs Practical with respect to Contact Hours	Theory Practical	75 (31.65%) 162 (68.35%)

Civil Engineering Technology:

The civil Engineering Technology department, offers undergraduate Civil Engineering Technology program. The curriculum formulated by HEC & NTC is followed in this program. Civil Engineering Technology is a dynamic field that bridges the gap between theoretical engineering principles and practical application in construction and infrastructure. This discipline focuses on the planning, design, construction, and maintenance of infrastructure such as buildings, roads, bridges, dams, sewerage and water supply systems.

Students in Civil Engineering Technology program learn to use modern tools like CAD (Computer-Aided Design), surveying instruments, and construction management software. The curriculum typically combines core engineering technology knowledge with hands-on laboratory and field experiences, preparing graduates for roles such as civil engineering technologists, site supervisors, project managers, and construction inspectors. The program emphasizes sustainability, safety, and efficiency in building environments that meet human needs while protecting natural resources.

ENTRY REQUIREMENTS:

- ◆ 12 Years of Education, HSSC Pre- Engineering (Physics, Chemistry, Mathematics), HSSC Pre-Medical (Physics, Chemistry, Biology), ICS (Physics, Computer Science, Mathematics), A-Level or equivalent, with a minimum score of 50%.
- ◆ Diploma of Associate Engineer (DAE) in the relevant discipline as per NTC regulations with a minimum of 50% marks
- ◆ As per NTC guidelines entry Test is mandatory.

Career Prospects:

Qualified Graduates in Civil Engineering Technology are in demand both in public and private sectors, particularly construction companies, consulting firms, and government sector, both home and abroad. With experience, they can progress to senior technical roles or pursue further studies in Civil Engineering Technology. The Civil Engineering Technology is the most demanded Technology all over of the world.

Programs Offered, Duration & Course Outline:

Program duration: **4 years**

Timings: Evening (Monday to Saturday)

Bachelor Science in Civil Engineering Technology:

Semester I	Semester II	Semester III	Semester IV
HUM-111 Islamic Studies	CET-121 Concrete Technology	CET-211 Evolution of Architecture and Engineering	CET-221 Transportation and Highway Technology
NSC-111 Applied Mathematics I	HUM-121 Communication Skills	HUM-211 Pakistan Studies	HUM-221 Human Skills
CET-111 Materials & Methods of Construction	CET-122 Civil Engineering drawing, Drafting and Interpretation	HUM-212 Professional Ethics	CET-222 Soil Mechanics
NSC-112 Applied Physics	COM-121 Introduction to Computer Programing	CET-212 Environmental Technology	CET-223 Structural Principles
HUM-112 Functional English	NSC-121 Applied Mathematics II	CET-213 Fluid Mechanics	HUM-222 Technical & Scientific Writing
CET-112 Surveying	NSC-122 Applied Chemistry	CET-214 Mechanics of Solids	NSC-221 Fundamentals of Applied Economics

Semester V	Semester VI	Semester VII	Semester VIII
CET-311 Hydrology	CET-321 Geology	CET-412 GIS and remote Sensing	CET-421 Supervised Industrial Training (Compulsory)
CET-312 Reinforced and Prestressed Concrete	CET-322 Irrigation Technology	CET-413 Ground Improvement Techniques	
CET-313 Construction Equipment and Jobsite Practices	CET-323 Construction of Steel Structures	CET-414 Design Assessment Tools	
CET-314 Computer Aided Drawing and Building Information Modelling	CET-324 Quantity Surveying and Estimation	CET-415 Building Codes and Compliance	
CET-315 Geotechnical Investigation and Foundations	CET-325 Maintenance and Repair of Civil work	CET-416 Smart Technologies for Facilities Management	
CET-316 Electro-Mechanical Technology	MGM-321 Technopreneurship	CET-417 Construction Project Administration	
CET-317 Project Part –I	CET-326 Project Part-II	CET-418 Drainage Technology	
		CET-419 Applied Hydraulics	
		CET-4120 Water Supply Systems	

Total Credits Hours and Contact Hours in 8th Semester	0+16= 16	0+40= 40
Total Credit Hours & Contact Hours in Four Years (When Optional Courses will be conducted instead of SIT in 7 th semester)	77+59 = 136	77+169 = 246
Theory VS Practical with respect to Contact Hours	Theory Practical	76 (31.30%) 172 (68.70%)
Total Credit Hours & Contact Hours in Four Years (When SIT will be conducted in both 7 th and 8 th Semester)	68+68 = 136	68+188 = 256
Theory VS Practical with respect to Contact Hours	Theory Practical	67 (26.56%) 228 (73.43%)
